Why modern PVCu?

Save Money... Don't Waste Money!

Our energy efficient Windows & Doors could save you up to 20% when upgrading from single glazed or older double glazed units.

The unique Advance 70 Windows and Doors Collection from Selecta Systems have been designed to blend seamlessly in to the framework of your home, combining exceptional performance with beauty and elegance.

Using the most advanced technology, products from the Selecta Systems Collection will provide the ultimate in terms of thermal and sound insulation, appearance, durability and security.

Modern PVCu windows and doors ultimately provide you with increased thermal performance thus ensuring heat stays in your home and reducing your energy costs.

Also, double or even triple glazed windows and doors have increased sound insulation along with high security locking systems and hardware.

All-in-all modern PVCu products will outperform older single and double glazed alternatives, increasing thermal efficiency throughout the home and improving security, whilst offering an aesthetically pleasing improvement to your home.

"Increase thermal efficiency throughout the home..."

What are the main benefits of modern

ENERGY SAVING

The Selecta profiles used to make the frames for your home offer excellent thermal insulation, as the gaskets and weathertight seals shut out draughts while the glazing reflects the heat back in to your room. The five chambers within the profiles also greatly improve the heat loss from your home. Aspects that will greatly reduce energy bills.

SECURITY

Reinforcements and multi-locking hardware used in the Selecta range provide added strength to make your home more secure. The products have been designed to give you enhanced security and 'peace of mind' should any unwelcome intruders decide to try and force entry in to your home.

SAFETY

Comfort and safety should never be compromised through security. In the event of an emergency our windows and doors provide easy and reliable exits that meet all safety standards. Additionally, childproof hinges and locks can be fitted to restrict opening aspects and a night vent facility is available to allow air circulation while the windows remain in a semi-closed position.

Energy Rated windows and doors will greatly reduce your energy bills.

APPEARANCE

When it comes to style, the discerning homeowner is looking for an individual product that will enhance the look of their property. Appearance and choice are two of the most important aspects to consider. For these reasons Selecta Systems aim to provide as much choice as possible to accommodate individual taste and style. All products are available in a sparkling white finish or a traditional wood effect in a variety of colours to suit you!

LOW MAINTENANCE

Painting, staining, sanding and filling are all eliminated. To remove any dirt simply wipe over with a damp cloth and mild detergent.

WEATHER RESISTANT

No matter what the weather conditions outside, come rain or shine PVCu windows and doors will retain their appearance and maintain the inside temperature.

EASY TO INSTALL

A Selecta Systems manufacturer will install your new windows and doors with minimum disruption to you and your home. They will take detailed measurements at your convenience to ensure that your new frames fit perfectly and will ensure that all debris is cleared away once the installation is completed.

Create a whole new feel for your home...

Windows

There are many aspects to consider when choosing new windows for your home. Whilst size and shape will depend largely on the aperture, a wide variety of options are available in order to you achieve the appearance you require to make it as individual as the interior.

Whether you choose the sleek appearance of the original or more decorative profile, Selecta Systems collection will give you easy to maintain windows that are stylish, elegant and unique. Reassuringly, the wide variety of designs available will complement the architecture of any home and add value.

Glass, Ventilation and Security

When choosing your glass design it is very important to consider the levels of privacy you require as well as the architectural look of your home.

Patterned, stained, leaded and georgian glass options are just some of the choices available with toughened glass and low emissivity glass offering energy saving aspects that will allow you to select a style that is both beautiful and practical.

Top and side openings can be used in a variety of combinations giving you flexibility in terms of style as well as improved ventilation and safety exits.

The shootbolts and locking system offer further 'peace of mind' with the majority offering the option of locking the window in a slightly open position.

Relax, with the knowledge that your newly installed windows & doors are performing and saving you money

Double-glazed windows can be given a traditional Georgian appearance

by opening up to the outside!

Bring the outside in to your home whilst also giving a feeling of space and light with stunning bi-folding doors

Bi-fold Doors

Bi-Fold Doors are a contemporary way to transform your home or commercial premises and create stunning, light-filled areas maximising the area of glass and the amount of natural light it offers.

These elegant, concertina doors add a real “wow” factor to any home or premises, and seamlessly connect your outdoor and indoor spaces. Once folded back, they create a large opening for easy access. Particularly suited for new-build projects, these designer folding doors are increasingly popular as property developers seek to differentiate their homes. Homeowners too are increasingly demanding more sophisticated products, as aspirational TV property programmes inspire more imaginative home improvements.

Available in a minimum of 2 window leaves. Bi-Folds can fill the full width of your property maximum 6 leaves. Available in a variety of combinations for an alternative to French Doors or Patio Doors and can be installed so that the doors sit inside or outside the property when folded back.

The versatility of the bi-fold door means that you can use it to create a glass wall up to an impressive 6 metres wide. As you'd expect, it's available in a choice of colours and woodgrain finishes.

Speak to your Selecta manufacturer about the bi-fold door options available to you.

Be unique, choose a different colour...

Colours, Style and Uniqueness

Whilst many favour the bright appearance of brilliant white window frames others prefer the more natural appearance of a wood finish product. Therefore to give maximum choice we offer rich and luxurious Rosewood or rustic Golden Oak options.

Can't make your mind up? You could always have both with white frames on the inside to blend with the decor and a wooden finish on the outside to suit the exterior of your home.

Want a modern look for your home? Why not choose from a palette of 22 standard foiled colours with Anthracite Grey or maybe a Chartwell Green, Irish Oak, Dark Red or Steel Blue? The choice is there for you to add your own unique touch.

All styles and shapes are possible and the bead used in the window design can subtly change the angles in the window from a soft curve to a straight edge. It is possible to add a bay or bow window to create a more spacious feel in a room or modern tilt and turn windows may be a practical alternative. We have many combinations available to suit your individual needs.

Hardware

You can choose from an array of safe and secure handles and hardware that will integrate in to the overall appearance of your window.

A white slimline handle that blends with the frame maybe your preferred choice or a gleaming, elegant brass or striking chrome could be used to enhance the openings.

The choice is varied and yours!

Choose your style & type of door...

Doors

The entrance to your home serves two main purposes; to act as a welcome to you, your family and friends and to keep unwanted visitors and the elements out.

Whether you require an inward or outward opening door, left or right hung preference or the choice of a low threshold easy access option for wheelchairs and pushchairs, you can rest assured that your door will look elegant whilst offering outstanding performance and security.

PVCu Residential Doors & Composite Doors not only look good they are tough & robust. Fitted with multi point locking mechanisms keeping your family & possessions safe.

Style, Security and the Elements

There are a wide variety of designs and colours to choose from that are finished in a pleasing woodgrain effect. Obscure or clear glass options are available in a diverse range of styles or perhaps you may wish to create a more elaborate design for the main entrance to your home.

Our doors have been developed with high security multi-locking systems to provide enhanced security, strength and resistance against any unwelcome visitors, giving you complete reassurance and 'peace of mind'.

To complete the appearance of your door a wide range of quality handles, door knockers and letterplates in a variety of finishes are available for you to select.

Choosing one of the doors from the Selecta range will give the added benefits of heat retention and reduced energy bills. Weathertight seals and frames will help to keep the cold and damp on the outside.

Patio Doors? French Doors?

Patio door systems provide a stylish, practical and convenient link to the outdoors or to your conservatory offering uninterrupted views in to the garden.

A modern operating system which offers easy, graceful and smooth flowing operation that gives security and strength when closed.

Our Patio doors simply slide back so they take up no space inside the room. The easy-glide operation makes opening & closing even large doors almost effortless.

...a glamorous option!

The Patio Doors are available in 2, 3 or 4 pane configurations with safety glass fitted as standard. They improve insulation against draughts, noise and better air circulation performance is achieved via the addition of internal or external vents.

Alternatively, traditional French Doors provide glamorous, energy efficient solution to allow more light in to your home. In addition they offer practical, convenient and easy access to gardens and conservatories.

The Selecta French Doors can be individually decorated with patterned, stained, leaded or frosted glass and with high security hinges they are both safe and secure.

Tilt & Turn Windows

Offering more ventilation option, reversible windows make cleaning possible from the inside. The technology to curve window frames to suit your home has been perfected and designs such as French casement deliver maximum ventilation when open.

Conservatories

A conservatory can be one of the most important additions to any home offering additional space whilst adding beauty and value to a property. This is a major investment that should bring comfort, space, security and enjoyment to the home.

Our tailor-made conservatories are all designed to meet your individual needs with many aspects incorporated in to the design including aesthetics, light, thermal efficiency, cost and architecture.

All our conservatories are intended to bring beauty and warmth to an extra room that can be used all year round.

Enjoy your garden all year round no matter what the weather. Our consultant will create a design to suit you and your requirements for you to enjoy.

designs to suit you...

Great consideration is given to the style ensuring that it is sympathetic with your home and we offer a broad range of designs. These are customised using our specialised drawing system which effectively demonstrates the look of your new conservatory.

We give thought to the features including the changes of the seasons, heat differentials throughout the year as well as stained glass options carefully positioned bevels that can enhance the view.

With a conservatory, vast attention is placed upon security and home safety whilst elegant handles and hinges are offered to ensure that your conservatory is both practically and aesthetically finished. We aim to remove the worries or concerns regarding installation by providing a complete service which includes surveying, planning and building. With a conservatory we endeavour to make sure that your installation is completed with minimal disruption to the home giving you time to enjoy the benefits.
